## CONTAINERS

[www.poultryplast.com](http://www.poultryplast.com)

Few things that make GIORDANO containers line economical and safe: the special design allows maximum ventilation, quicker and easier cleaning. Perfect interlocking reduces danger of load shifting. High density polyethylene construction guarantees the maximum resistance to high and low temperatures. All containers are suitable to deep-freeze. The UV stabilizer reduces ageing due to solar rays.

### T 78

Cod. 0405001

Pierced bottom and sides, stackable when full, nestable when empty

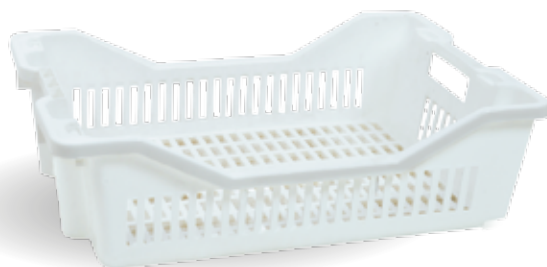

Ext. size: 770x435x h.250 mm  
 Int. size (base): 685x380x h.225 mm  
 Nesting height: 150 mm  
 Capacity: 60 l  
 Weight: 2.000 kg  
 Shipping capacity: 850 pcs per 20 ft cnt  
 Colours: white, yellow, red

### F 68

Cod. 0404001

Solid or pierced bottom, pierced sides, stackable

Ext. size: 680x470x h.215 mm  
 Int. size (base): 640x430x h.180 mm
